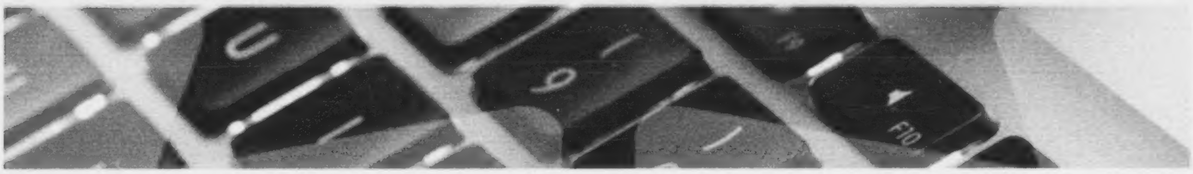
Trade-marks Journal

2018-02-14 — Vol. 65 No. 3303



Canada

Trade-marks Journal
Vol. 65 No. 3303

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

COLORADD

Image Description (Vienna)
- Circles
- Several circles or ellipses, juxtaposed, tangential or intersecting
- Several triangles, juxtaposed, joined or intersecting
- Triangular figures with one or more truncated or rounded angles
- More than two lines or two bands
- Oblique lines or bands
- Triangular figures with one or more convex or concave sides
- Triangles with dark surfaces or parts of surfaces
- Red, pink, orange
- Blue
- Yellow, gold
- Green
- Violet
- Black
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trademark. The colours red, blue, yellow, orange, green, purple, black and white are claimed as a feature of the mark. The mark consists of a triad of interlocking circles outlined in black. Starting clockwise at the top of the circles design, the upper circle is red superimposed with one white rounded triangle pointing to the left of the circle, the lower right circle is blue superimposed with one white rounded triangle pointing downward to the right of the circle, and the lower left circle is yellow superimposed with one white rounded rectangle in the center of the circle. The shared center Reuleaux triangle portion of the interlocking circles is black. Around the center Reuleaux triangle in black are three symmetrical shapes comprised of connecting deltoid curves and starting clockwise from the top of the circles design the deltoid curve shapes are respectively coloured purple (with a white rounded triangle symbol facing the red circle and a white rounded triangle symbol facing the blue circle), green (with a white rounded triangle facing the blue circle, with a white rounded rectangle above the white rounded triangle) and orange (with a white rounded triangle pointed toward the red circle with a white rounded rectangle underneath the white rounded triangle). Underneath the triad of interlocking circles are the lowercase word "color" in solid black and the word "add" in white with black outline.

Goods

Printed matter namely guides, books and brochures displaying graphic symbols for a colour coding system for use by the colour-blind; printing fonts, typefaces, type designs and graphic symbols for use by the colour-blind; multimedia teaching and training materials namely, audio-visual presentations about a system of graphic symbols to identify colours for use by the colour-blind; computer software featuring a system of graphic symbols to identify colours for use by the colour-blind

SERVICES

Instruction, training and education to manufacturers, retailers and consumers about using a system of graphic symbols for colour identification by the colour-blind; business consulting services in the field of product design, product marketing and branding to the colour-blind; research and consulting services about graphic design and user experience for the colour-blind; computer software design; computer hardware design; licensing of intellectual property

Image Description (Vienna)
- Letters presenting a special form of writing
- Letters overlapping
- Blue

Colour Claim
Colour is claimed as a feature of the trade-mark. The mark consists of two overlapping letters 'P'. The first 'P' is medium blue, and is superimposed over the second 'P', which is light blue and appears below and to the right of the first 'P'. The portion of the letters which overlap is dark blue.

Goods

Class 09
Computer software for processing electronic payments and for transferring funds to and from others; authentication software for controlling access to and communications with computers and computer networks; magnetically encoded credit cards and payment cards

SERVICES

Class 35

(1) Promoting the goods of others, namely, providing information regarding discounts, coupons, rebates, vouchers and special offers for the goods of others; promoting the goods and services of others by providing hypertext links to the web sites of others; promoting the goods and services of others by providing a web site featuring links to the online retail web sites of others; business consulting services in the field of online payments; managing and tracking credit card, debit card, ACH, prepaid cards, payment cards, and other forms of payment transactions via electronic communications networks for business purposes; business information management, namely, electronic reporting of business analytics relating to payment processing, authentication, tracking, and invoicing; business management, namely, optimization of payments for businesses

Class 36

(2) Financial services, namely, electronic funds transfer; clearing and reconciling financial transactions; providing a wide variety of payment and financial services, namely, credit card services, issuing credit cards and lines of credit, processing and transmission of bills and payments thereof, bill payment services with guaranteed payment delivery, all conducted via a global communications network; credit card and debit card transaction processing services; reimbursement of funds for disputed items in the field of electronic payment purchases; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks; credit card transaction processing services; credit services, namely, providing revolving credit account services; bill payment services; providing electronic mobile payment services for others; credit card and payment processing services; electronic foreign exchange payment processing; payment processing services, namely, providing virtual currency transaction processing services for others

Class 42

(3) Providing temporary use of on-line non-downloadable software for processing electronic payments; providing temporary use of on-line non-downloadable authentication software for controlling access to and communications with computers and computer networks

CLAIMS

Used in CANADA since at least as early as April 30, 2014 on goods and on services. Goods

Class 11

Apparatus for lighting, heating, steam generating, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, boilers for heating installations, electrical boilers, heating boilers, industrial boilers, waste heat boilers, pipes for heating boilers, steam generators, kerosene heaters, propane fuel fired heaters, butane fuel fired heaters, diesel fuel fired heaters, oil heaters, fuel pellet fired heaters, solid fuel burning heaters, feed water heaters for industrial and commercial purposes, industrial surface condensers, heating, air conditioning and ventilating units, industrial dehumidifiers, ventilating units, air conditioners, refrigerators, and water treatment equipment, namely, desalination units and reverse osmosis units; air to heat recovery units for building ventilation systems; heating apparatus for use in the treatment of waste material, namely, kilns, heat treating furnaces, waste disposal furnaces and waste disposal incinerators; installations for generating steam and nuclear generators; industrial installations and apparatus for the processing and recovery of oils, fats and of petroleum, petroleum products and of petroleum derivatives, namely, industrial installations and apparatus for the distillation, separation, conversion and treatment of oils, fats and of petroleum, petroleum products and of petroleum derivatives, delayed cokers and gas, petroleum, biomass and solid-fuel fired heaters; industrial chemical installations and apparatus, namely, industrial chemical installations and apparatus for the conversion, separation, treatment and combination of feedstock, chemicals and petrochemicals; steam generators; ventilators for heat exchangers; heat recovery ventilators; power-operated gas and water vaporisers for industrial and commercial purposes; heaters, namely, water heaters, feed water heaters, gas water heaters, and electric heaters for commercial and industrial purposes; fired heaters, namely, oil fired heaters, kerosene heaters, propane fuel fired heaters, butane fuel fired heaters, diesel fuel fired heaters, fuel pellet fired heaters, and solid fuel burning heaters; industrial heaters, namely, oil fired heaters, kerosene heaters, propane fuel fired heaters, butane fuel fired heaters, diesel fuel fired heaters, fuel pellet fired heaters, and solid fuel burning heaters for industrial purposes; kilns; rotary kilns (for industrial purposes); gas condensers other than being parts of machines; steam super heaters for boilers; steam desuperheaters for boilers; desalination units; air heaters; parts and fittings for installations for generating steam and for nuclear power stations, namely, heat exchangers; parts and fittings for installations for steam and electricity generating stations, namely, surface condensers and feed water heaters for industrial purposes; steam generating and condensing installations and equipment, namely, boilers for heating installations, heating boilers, industrial boilers, waste heat boilers, hot water boilers, pipes for heating boilers, steam generators, surface condensers, and feed water heaters for industrial purposes; refuse disposal incinerators, waste-to-energy waste disposal installations, namely, waste disposal incinerators; air purification installations and equipment, namely, wet scrubbers and gas scrubbers; heating and cooling apparatus for feedwater heaters, namely, water heaters and cooling evaporators for feedwater heaters; heat exchangers for the removal of flue gases; burners and boilers, namely, acid gas burners for treating gas streams containing hydrogen sulphide, thermal incinerators, combustion furnaces, combustion chambers, steam reforming furnaces for converting natural gas and hydrocarbons to hydrogen for industrial purposes, waste disposal furnaces, waste disposal incinerators and ovens for the treatment of waste and parts and fittings for all the aforesaid goods; heating apparatus for use in the treatment of waste material, namely, rotary kilns for industrial purposes, electric heaters for industrial and commercial purposes, natural gas heaters, water heaters, petroleum-derivative heaters and oil heaters and parts and fittings for all the aforesaid goods; chemical flue gas scrubbing apparatus, namely, dry scrubbers and wet scrubbers.

SERVICES

Class 35

(1) Business and management consultancy services; business management services, namely business project management; supply and demand forecasting and analysis and assessment of product distribution processes for others; procurement services in the form of purchasing equipment, materials, labour and services of others in the oil and gas, oil refining, chemical, petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, mining, power generation, power plant operation and maintenance, construction, transportation, waste processing plants, energy generation and construction of infrastructure, namely, roads, prisons, schools, military and defense facilities; business administration; cost management and analysis; strategic business planning; risk analysis; business management advisory services in the fields of financial planning and risk management; contractor management, planning, scheduling and procurement services, namely, personnel management; personnel management; supply chain logistics and reverse logistics services consisting of delivery, storage and transportation of goods for others by air, rail, ship or truck; business services namely,

providing information in the field of the development of new industrial facilities and infrastructure, managing the life cycles of industrial facilities (and installations) and infrastructure and resource planning for the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing industries; document preparation and document management; business document management; business management services relating to information and data compiling and analyzing; indexing of documents for others; electronic processing and the Internet transmission of data in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; conducting of business feasibility studies; advisory services relating to business management and business operations; efficiency expert services, namely optimisation of plant operations; operational business assistance to enterprises; business logistic services.

Class 36

(2) Financial asset management services; project financing and finance package services namely, financial risk management services; financial investment analysis; consultancy services in the field of finance, namely, business acquisition and merger consultation; financial consultancy in the energy sector; project financing in the field of energy, other than debt financing; financial cost analysis services; financial planning of projects; cost management of projects in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; financial value management; real estate brokerage; consultancy services in the fields of financial asset management, project financing, financial investment analysis, cost management and real estate brokerage services.

Class 37

(3) Building construction services; bridge construction services; pipeline construction services; road construction services; factory construction, laying and construction of pipelines, pipeline maintenance services, underwater building and construction, warehouse construction; building and construction services, namely, building and construction and decommissioning of nuclear power plants; building and construction services, namely, building and construction of biofuel power plants and stations; building and construction services, namely, building and construction of renewable energy projects, namely, wind farms, solar thermal installations, steam plants, turbines for the generation of electricity, and geothermal electrical plants; repair, maintenance and installation services, namely, repair, maintenance and installation of industrial facilities, namely, upstream oil and gas facilities as well as processing plants and equipment, namely those used in the production and treatment of refinery products, energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals and natural gas; construction of industrial facilities, namely, processing plants and equipment used in the production and treatment of refinery products, energy, pharmaceutical products, steam, electricity, flue gas, chemicals, metals, petrochemicals, and natural gas; building, construction and engineering project management; retrofitting of industrial plants and facilities, namely, nuclear power plants, oil refineries, chemical production plants, solid-fuel-fired power plants, oil-fired power plants, gas and oil processing

plants, pharmaceutical manufacturing plants, machine-manufacturing plants, water treatment plants, waste treatment plants and processing plants; gas and oil drilling; mining; consultancy services for industrial and commercial projects in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing.

Class 39

(4) Transport by boat, air, rail and truck; packaging the goods of others; warehouse storage services; public utility services in the nature of water, electricity and gas distribution; utility services in the form of electricity distribution; utility services in the form of water distribution; transportation of oil and gas by boat, rail and truck; utility services transmission of electricity; utility services in the form of natural gas distribution; transmission of natural gas through pipelines; transmission of oil or and gas through pipelines; utility services in the form of electricity distribution, namely, distribution of electricity via electric cables and wires; transport of hydrocarbon fuels by boat, air, rail, truck and pipeline; storage of gaseous fuels; storage of electricity; storage of gas; supply chain logistics and reverse logistics services consisting of the delivery of goods for others by air, rail, ship or truck; consultancy services in the fields of transportation, distribution, and transmission of energy and fuel, supply chain logistics and reverse logistics, and the packaging and storage of the goods of others.

Class 40

(5) Treatment of materials, namely land decontamination, soil treatment services, soil redemption services, decontamination of nuclear waste, decontamination of hazardous materials, decontamination of sub-surface soil sites, chemical decontamination of nuclear plants, waste water reprocessing, reprocessing of nuclear fuels, conversion of nuclear fuels, air treatment, water treatment, treatment of waste materials, fuel treatment services, treatment of natural gas, treatment of flue gas, treatment of hazardous materials and substances, industrial treatment of effluents, treatment of industrial waste, chemical treatment of exhaust gases from fossil fuel combustion; oil refinery services; filtration and purification of gases; recovery of hydrocarbons from gas; custom manufacture of steam generators; custom manufacture of equipment for utility power and industrial facilities, including steam generators and parts thereof, condensers, heaters, acid gas burners, rotary kilns, coal pulverizers, gasifiers and flue gas cleaning equipment; custom manufacture of equipment for industrial facilities, namely material handling systems for use in mines; custom manufacture of replacement parts for use in utility power and industrial facilities, including steam generators, condensers, heaters, fired heaters, acid gas burners, rotary kilns, coal pulverizers, gasifiers and flue gas cleaning equipment; thermal processing of materials including incineration of gases and waste incineration; recycling of waste; waste treatment, namely, treatment of municipal solid waste and biomass waste for use in power generation; recycling of nuclear fuels; oil and gas well treatment; processing of oil and gas; processing of fuel materials; generation of electricity; consultancy services in the fields of oil and gas extraction and processing, oil refining, manufacturing, chemicals production, power generation, minerals and metals extraction and processing power plant operation and waste processing.

Class 41

(6) Practical training in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy

transmission and distribution, and waste processing; conducting instructional training courses in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; training of specialists in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; preparation of operating manuals; publication of technical operating manuals; consultancy services in the fields of practical training in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing.

Class 42

(7) Engineering services, namely, electrical engineering, mechanical engineering, civil engineering, instrumentation engineering and chemical engineering in the field of biofuel power plants and stations; engineering services, namely, nuclear engineering, civil engineering and instrumentation engineering in the field of nuclear power plants; engineering services, namely, electrical engineering, mechanical engineering and chemical engineering in the field of renewable energy projects, namely, wind farms, solar thermal installations, steam plants, turbines for the generation of electricity, biomass plants and geothermal electrical plants; engineering services, namely, electrical engineering, mechanical engineering, civil engineering and chemical engineering in the field of alternative energy projects, namely, development of electrical generators for converting wave power into electricity, and developing electric, galvanic and solar batteries; engineering services, namely, electrical engineering, mechanical engineering, civil engineering, instrumentation engineering, chemical engineering and architectural engineering in the field of pharmaceutical, chemical, oil and gas processing plants, refineries, and manufacturing plants; engineering services, namely, electrical engineering, mechanical engineering, civil engineering, instrumentation engineering, chemical engineering and architectural engineering in the pharmaceutical, chemical, manufacturing, oil and gas industries; engineering services relating to the extraction, processing, treatment and utilisation of oils sands, namely, oil sand mining, oil sand extraction, oil treatment and refining; technical project management in the fields of chemical engineering, mechanical engineering, civil engineering, instrument engineering, nuclear engineering, electrical engineering, environmental engineering; design engineering, namely, mechanical engineering for design of material handling systems and crushing plants, comprised of crushers, screens, structures, conveyors, storage bins and feeders for use in mines; electrical engineering services; mechanical engineering; geotechnical engineering; industrial process engineering in the fields of oil and gas, oil refining, chemical and petrochemical production, pharmaceuticals, manufacturing and power-generation; thermal engineering; instrument control engineering; fire engineering, energy and flare surveys; design of mechanical equipment and instruments in the fields of oil and gas, oil refining, chemical and petrochemical production, pharmaceuticals, manufacturing and power-generation; electrical systems design namely, electrical engineering; design of systems to wrap or package manufactured products in the chemicals, petrochemicals, and other industrial manufacturing plants; piping systems design in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals

and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; heating, ventilating and air conditioning systems design; computer software engineering; design of IT systems; provision of technical information relating to the design of plants and facilities in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, manufacturing, healthcare, medical, scientific research, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, namely, development of transportation structures, government in the fields of education, military and defense, energy transmission and distribution, and waste processing; conversion of data from physical to electronic media; data mining; computer services, namely, platform as a service (PaaS) services featuring software platforms for use in database management, for use as a spreadsheet, for use in electronic storage of data, and for word processing in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; providing non-downloadable software for use in database management, for use as a spreadsheet, for use in electronic storage of data, and for word processing in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; technological research in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; technological and technical studies, namely studies relating to electricity grid codes and the connection of facilities to electricity networks; technological consulting in the field of automation of systems; preparing, designing and conducting energy studies; preparing, designing and conducting audits including audits in the field of mining reserves and in the field of energy; preparing, designing and conducting energy surveys; conducting of technical feasibility studies; technical consultation in the field of delayed coking; technical consultation in the field of energy and emissions management, including solvent deasphalting, visbreaking, hydrogen production and sulphur/tail gas treatment; analysis of seismic data for others; architectural services; structural design services; building condition surveys; landscape management and design; surveying services including the surveying of land, quantity surveying, conducting engineering surveys, conducting geological surveys; environmental inspection, planning, engineering, assessments, testing and surveys; energy optimisation services; process optimisation services; computer system integration services; plant audits and surveys; equipment inspection and assessment including the assessment of plant and machinery; providing quality control for the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; materials testing services, namely, testing of new products for others and materials testing; creation of computers models to evaluate the impact of potential designs and changes to plants and facilities in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing; industrial process simulation and optimization, namely, technical consulting in the field of simulation and optimization of industrial processes in the fields of oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing; safety advice in relation to engineering or production projects or processes, hazard and operability studies; oil and gas exploration services; technical consultancy services in the field of chemical engineering, mechanical engineering, electrical engineering, nuclear engineering, instrumentation engineering, civil engineering in the energy, oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; scientific studies and research relating to projects, products and industrial processes in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing.

Class 45

(8) Legal services; licensing of intellectual property; licensing of technology, namely, computer software, power generation equipment technology, and technical processes for the production and treatment, remediation and clean-up of materials in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; granting of licences on intellectual property; administration of the licensing of the goods and services of others; security services for the protection of property and individuals, namely, security guard services, security inspection service for others, and monitoring of burglar and security alarms; information, advisory and consultancy services in the field of workplace safety, worksite safety and regulations on safety at work; site safety and safety management; fire prevention

consultation; information, advisory and consultancy services in the fields of intellectual property licensing and the licensing of technology, namely, computer software, power generation equipment technology, and technical processes for the production and treatment, remediation and clean-up of materials in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries; advisory and consultancy services to ensure compliance with regulations in the oil and gas, oil refining, chemical and petrochemical, pharmaceutical, environmental, industrial and commercial, metals and mining, power generation, power plant operation and maintenance, construction equipment, transportation, infrastructure, government, transmission and distribution, and waste processing industries legal consultation services; consulting services in the field of security services for the protection of property and individuals, namely, security guard services, security inspection services for others, and monitoring of burglar and security alarms.

Goods

Class 05

(1) pharmaceutical and sanitary preparations for medical use, namely, saline solutions in form of spray and single-dose for ear, nose and throat care, for treating cold, for treating allergies; transdermal patches used as nasal decongestants; preparations and products related to the hygiene, to the care or to the treatment of ENT sphere (ear, nose and throat), namely, nasal and sinus irrigators and cleansers in the form of prefilled dispensers, ear drops, nose drops, nasal decongestants, nasal rinse, nasal spray preparations, medicated sprays for auditory canal, medicated nasal sprays, medicated solutions used in washing the auditory canal in form of single dose, medicated solutions used in washing the nasal passages in form of single dose, medicated throat sprays; dietetic substances adapted for medical use for general health and well-being; nutritional supplements for general health and well-being; hygiene, skin care and skin treatment preparations and products, namely, products and preparations for cleansing the skin for medical use, medicated skin care preparations, namely antibiotic cream, pharmaceutical preparations for the treatment of bacterial skin infections, fungal skin infections, viral skin infections and parasitic skin infections; disinfectants for hygienic purposes based on a saline solution for ear, nose and throat care; medicinal infusions for the care of the throat, for treating cold, for treating allergies; tonics, namely, medicines for boosting energy; dietetic supplements and nutritional supplements for general health and well-being and not for medical purposes; hygiene and skin care preparations, namely nasal and sinus irrigators and cleansers

Class 10

(2) suction devices for decongesting nasal passages, namely, nasal aspirators, baby nose cleaner (nasal aspirators for babies)

FREUDENBERG

Image Description (Vienna)
- Two lines or bands
- Oblique lines or bands
- One triangle
- Triangular figures with one or more truncated or rounded angles
- Triangles containing one or more other geometrical figures -- Note: Including triangles containing bent or straight lines.
- Rectangles
- One quadrilateral
- Quadrilaterals containing one or more triangles or lines forming an angle
- Quadrilaterals with dark surfaces or parts of surfaces

Goods

Unprocessed artificial resins and unprocessed plastics used in industry; adhesive compositions of polyurethane; thermoplastic elastomer resins and thermoplastic concentrates in liquid form for use in industry; chemicals for electroplating, passivating, phosphating and sealers and chemicals, namely sealers of organic polymers and nanoparticles of silicon dioxide and chemical additives therefor for corrosion protection, reducing friction, heat resistance and improved visual appearance when applied; paint strippers; chemicals based on oils, greases and waxes, in particular chemicals based on oils, greases and waxes being mould-release agents for moulds of plastics or of metals or being for release agents for welding of metal; chemical additives for oils; antifreeze; brake fluid; isostatic coatings of polytetrafluoroethylene; impregnating agent, namely polyurethane emulsions for use as a water repellant on textiles; chemical compositions for use on different surfaces on tiles, grout, textiles, fabrics, upholstery, carpets, clothing, outer clothing and footwear, to repel or remove dirt, stains and moisture, in particular impregnating agents for household surfaces and/or textiles; chemical cleaning preparations for use in industrial processes, in particular in the food and food processing industries; chemicals in the form of detergency enhancers; chemical substances for preserving foodstuffs, namely raw materials for smoothing and preserving prepared foodstuffs, in particular confectionery; glazes and release agents for foodstuffs in the form of emulsions and dispersions; mixtures for manufacturing elastomers or rubbers, in particular mixtures for manufacturing elastomers or rubbers for use at low temperatures, mixtures for manufacturing elastomers or rubbers for binding to metals; mixtures for manufacturing elastomers or rubbers for binding to metals and for use at low temperatures; varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants for use in the manufacture of paint, food, cosmetics, pharmaceuticals; raw natural resins; preparations for preventing the deterioration of wood; lacquers, in particular sliding lacquers; coatings for protection against rust and/or corrosion; Bleaching preparations for laundry use; soaps for household use; moisture-impregnated disposable cloths, steelwool pads with soap; cleaning preparations for glass, in particular window glass; cleaning preparations for surfaces of metal, including stainless steel, chromium, bronze and copper; cleaning preparations for range and stove surfaces; cleaning preparations for counter surfaces; cleaning preparations for cabinet surfaces; cleaning preparations for eating and cooking implements, including cutlery, dishes, pots and pans; cleaning preparations for wood; bathroom cleaning preparations, cleaning preparations for stone surfaces, including marble surfaces and granite surfaces; cleaning preparations for tiles and grouting mortar; all-purpose cleaning preparations; cleaning preparations for motor vehicles; general-purpose cleaning and polishing liquids; cleaning preparations for carpets and carpeting; pet stain removers; mould-removing preparations; shoe care preparations, in particular shoe cream, shoe wax; all-purpose scouring liquids; scale-removing preparations; fabric softeners for laundry use; preparations for the care, treatment and beautification of fabrics; industrial oils, in particular lubricating oils; industrial greases, in particular lubricating greases; lubricants, in particular lubricants in the form of sliding lacquers; additives for lubricants; self-lubricating, unprocessed artificial resins and plastics for improving sliding properties, in particular in the form of powders, liquids or pastes; self-lubricating artificial resins and plastics for improving sliding properties in the form of powders, liquids or pastes being friction-reducing coating preparations; self-lubricating artificial resins and plastics for improving sliding properties in the form of panels, blocks and rods being semi-finished goods and being substitutes for bearing metals; dust absorbing, wetting and binding compositions, namely automotive lubricants and industrial lubricants; adhesive bandages; wound dressings; wound dressing pads; compresses and compress covers; foam materials for treatment and management of wounds; medical textiles for wound care, wound compresses and substitute skin (patches); medical textiles being adhesion barriers on wounds and for closing wounds; medical textiles for haemostasis; medical textiles with regenerative properties being carriers of cells for bone, cartilage, skin and tendon regeneration; insecticides and deodorising preparations; common metals and their alloys; pipes and tubes of metal; safes; ores; water-tight rings and flanges of metal for pipes and tubes; textile machines; packaging machines; hydraulic accumulators for storing and providing pressure; hydraulic reservoirs, in particular diaphragm accumulators, piston accumulators, pressure accumulators, accumulators for axle suspension, wheel suspension and/or cab suspension; belts for machines; rollers for printing machines; diaphragms for pumps and valves; anti-friction bearings for machines; ball-bearings, roller bearings and plain bearings being parts of machines; bearings, in particular self-lubricating bearings; fitted parts made of self-lubricating artificial resins and plastics for improving sliding properties, namely self-lubricating bearings; bearings for transmission shafts; journal boxes (parts of machines); seals being parts of engines; components of metal for use in the gas and oil industry, in particular scrapers of metal, pressure test seals, components for wireline and downhole tools and shutter valves; seals of metal, in particular for use in the oil and gas industry, in particular flange seals, including spiral-wound seals and serrated seals; rod wipers and piston guide rings used in hydraulic and pneumatic cylinders; guide and oil-removing elements for hydraulic and pneumatic cylinders; guide elements for hydraulic and pneumatic applications, in particular guide rings and bearing rings for protection of cylinder rods and pistons; intake manifolds for land, air and water vehicles; engine parts for air and water vehicles, namely shaft couplings, transmission shafts, driving gear elements, journals (parts of machines), machine belts; bellows; expansion bellows, in particular rubber expansion bellows, expansion bellows of thermoplastic elastomers; elastic bearings for machines being sound and vibration absorption parts; pneumatic springs and spring struts with bellows of elastomeric material for supporting vibrating parts of vehicles and machines; elastic springs for sound, vibration and shock absorption, being parts of machines; multilayer springs for sound, vibration and shock absorption, being parts of machines; valves for machines, motors and engines; moulded semi-finished parts and finished goods of vulcanised perfluoroelastomers in the form of diaphragms for hydraulics, pneumatics and mechanical engineering; bearings for use in machine parts, vehicles and for transmission shafts namely hydraulic bearings, spherical bearings, conical bearings, machine bearings, flat bearings, wedge-shaped bearings, round bearings, instrument bearings, support bearings, barrel roller bearings, framework support bearings, axle guide bearings, hydraulic axle guide bearings, double U bearings, V bearings, MO bearings, M bearings, O-shaped bearings; bushings, in particular hydraulic bushings; springs for use in industrial machinery, namely multilayered springs, conical springs, chevron springs, roller springs, auxiliary springs; spring inserts for use in industrial machinery; spring bases being parts and fittings for industrial machinery; rolling supports for use in industrial machinery and vehicles; buffers being parts and fittings for industrial machinery; transverse and longitudinal buffers; wedge bundles being parts and fittings for industrial machinery; cleaning robots; electric floor cleaning brushes, suction apparatus for cleaning windows, namely vacuum cleaner specifically for cleaning windows; electric cleaning machines for carpets and carpeting; filters being parts of machines, motors or engines; roller covers of non-woven fabrics; cash registers, calculating machines, computers; automated lubricant dispensers for use in dispensing specific quantities of specialty lubricants for use with industrial machinery and in industrial applications; filters being fitted parts for office equipment, namely for laser printers, document shredders, fax machines and copiers; filters being fitted parts for outlet air from office equipment, namely from laser printers, document shredders, fax machines and copiers; connectors, in particular electric connectors; sheaths for electric cables; fuel cells and parts therefor; printed circuits; junction sleeves for electric cables; covers for electric outlets; magnet armatures; magnetic encoders used for the detection of position and movement in the industrial and automotive fields; solenoid-controlled valves; battery separators of non-woven fabrics, non-woven fabrics being semi-finished materials for making battery separators, non-woven fabrics for use in batteries; respirators and respiratory masks, in particular of non-woven fabrics, for use in industry; cases and liners of non-woven fabrics for electromagnetic data carriers and floppy disks; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, in particular flat cables, flat conductors, circuit boards; flat conductors for use as antennae structures; cable assemblies consisting of round cables and/or flat conductors; connections for antennae structures in the windscreen region of vehicles; connections for antennae structures in the windscreen region of vehicles being designed exclusively as a flat conductor or as a combination of flat and round cables; connections for heating systems in the windscreen region of vehicles being designed exclusively as a flat conductor or as a combination of flat and round cables; grounding strips; capacitor films; sensors for detecting pressure, temperature, electric currents, electric voltages, moisture, distances and/or mechanical deflections; membrane keyboards; electric wiring and sensors, in particular for wiring solar cells; protective gloves for use in industry; artificial limbs, eyes and teeth; suture materials; hoses of silicone and thermoplastics, silicone plugs and silicone sealing clamps for transfer of fluids for use in the pharmaceutical, biopharmaceutical and medical industries; prostheses, in particular voice prostheses; trocars; surgical adapters, in particular fistula adapters; textile surgical implants fitted with regenerative cells for regeneration of organs and body tissue, including the aforesaid goods of non-woven fabrics or comprising non-woven fabrics; surgical textiles for supporting vascular prostheses and organs; textiles for coating prostheses; textile surgical implants being substitutes for tissue and for strengthening tissue; inserts comprising non-woven fabrics for air purification installations and equipment for the medical industry, respiratory masks of non-woven fabrics for medical use, inserts comprising non-woven fabrics for respirators and masks for the medical industry; adhesive bandages; antiseptic liquid bandages; bandages for dressings; menstruation bandages; moleskin for use as a medical bandage; elastic bandages; health trusses; hernia bandages; plaster bandages for orthopaedic purposes; plaster bandages for orthopedic purposes; support bandages; supporting bandage slings; supportive bandages; suspensory bandages; surgical gowns, surgical drapes, surgical face masks, plaster supports, supports for first-aid dressings, gauze substitutes, padded bandages (bandages for use under plaster casts); lighting for control panels; flat cables and flat conductors with electronic components for interior or exterior lighting of vehicles, ships, aircraft, buildings, for lighting of furniture or for lighting for control panels; film heaters and large-area flat conductors, used in particular for heating exterior mirrors, steering wheels, seats, batteries, passenger compartments, sensor systems, trim parts and units; components for heating installations for vehicles, in particular film heaters; filter inserts for cleaning air supply and exhaust air and being parts for air conditioning; filter inserts for air purifiers, in particular for air purifiers for rooms; filter inserts for ventilation installations, in particular for mobile ventilation installations; filter inserts for ventilation installations for office equipment, in particular for purifying the inlet air of computers; filter inserts for stationary and mobile ventilation installations for rooms, in particular for offices, conference rooms, entrance halls, exhibition halls and hotel rooms; filter inserts with a fixed frame or being cartridges, in particular filter inserts of non-woven fabrics, in particular for air filtration in air conditioning installations and fresh air blowers for motor vehicles; textile filter fabrics for repelling pollen and dust and for ventilation, being sheet material and in a fixed frame for building apertures; filter inserts for gas, air and liquid filtration installations and equipment, in particular pre-fabricated filter inserts of non-woven fabrics therefor; non-woven fabrics for reinforcing semi-permeable membranes for microfiltration and ultrafiltration and reverse osmosis; filter inserts for milk, beverage and drinking water filtration installations and equipment, in particular pre-fabricated filter inserts of non-woven fabrics therefor, and non-woven fabrics therefor being semi-finished materials; drive belts; clamp rollers; machines for gas distribution and valve actuation; engine parts for land vehicles, namely shaft couplings, transmission shafts, journals (parts of machines), drive belts; parts of land, air and water vehicles, namely shock absorbers, shock absorber springs, suspension springs, pneumatic springs; carts for transporting cleaning materials and equipment; guide rods, in particular wheelset guides; trailing links; pneumatic springs; non-woven fabrics for automobile construction; non-woven fabrics for use in manufacturing the interior trim of automobiles, trucks, vans, boats and aircraft; sound and heat-absorbent insulating materials of non-woven fabrics in the form of moulded parts or surface structures, being linings for luggage compartments and engine compartments and being linings for passenger compartments of land, air and water vehicles; Precious metals and their alloys; jewellery, precious stones; Paper, cardboard; photographs; adhesives for stationery or household purposes; paint brushes; typewriters and plastic materials for packaging; printers' type; printing blocks; rubbish bags of plastic or paper; vacuum cleaner bags of non-woven fabrics, paper or non-woven/paper laminates; paper or non-woven/paper laminates for vacuum cleaner bags; filters being fitted parts for office equipment, in particular for laser printers and document shredders; rubber, gutta-percha, gum, asbestos and mica; extruded plastics for use in manufacturing; seals of polytetrafluoroethylene, elastomers, rubber or highly elastic and thermoplastic plastics or thermoplastic elastomers combined with metals or other plastics, in particular lip seals for movable parts of machines; shaft seals; radial shaft seals; retaining rings; cassette seals; valve stem seals; O-ring seals; butterfly valve seals; sealing plugs designed as composite parts of metals and elastomers for use in the manufacture of automobiles and as parts for industrial machinery; seals for shock absorbers and gas pressure springs; valve-spindle seals; O-rings; flat gasket seals; O-ring seals; axle seals; seals (not of metal), namely oil seals, liquid seals, insulating seals, piston seals and rod seals, in particular cup seals, packing seals and rod wiper seals; buffer seals for use in the manufacture of automobiles and as parts for industrial machinery; wiper rings, all of the aforesaid goods being for sealing against oil, grease or air in hydraulic and pneumatic applications; seals for hydraulic braking systems; seals for hydraulic and pneumatic cylinders; screw seal rings, in particular USIT rings; rotary pressure seals for use in the manufacture of automobiles and as parts for industrial machinery; diaphragms, in particular accumulator and separator diaphragms, pump diaphragms, regulating and switching diaphragms; solid silicone parts, namely jet formers for showers, seals, diaphragms, housing parts, injection moulded parts, namely liquid silicone seals for use in industrial machinery; liquid silicone seals for use in the manufacture of automobiles and as parts for industrial machinery; plastics in the form of sheets, blocks, balls, rods for use in the manufacture of automobiles and as parts for industrial machinery and pipes; static cylinder cover seals; V-packings being chevron multilayer packing seals for sealing static piston and centrifugal applications, in which male and female adapters are used in order to make up a V-set; stuffing box packings namely seals for use in pumps that can resist high temperatures and chemicals; elastomers and plastics for use in the gas and oil industry; seals, not of metal, for use in the gas and oil industry, in particular packers, production packers, service packers, mechanical packers; BOP (blow-out prevention) seals; rubberised chain wheels; panels of graphite-based materials for use as sealing rings, packing seals and for heat insulation; slide ring packings and seals namely mechanical seals and packings therefore for use in sealing and packing a rotating shaft; seal support rings for sealing against oil, grease or air in hydraulic and pneumatic applications; sound-absorbing multilayer panels for use in the manufacture of automobile parts and as parts for industrial machinery of foam and/or plastics for vehicle cabs, for the building industry and for industrial machines; elastomers, in particular elastomers for use at low temperatures; rubber, in particular rubber for use at low temperatures; moulded semi-finished parts and finished goods of vulcanised perfluoroelastomers in the form of seals and O-rings for use in hydraulics, pneumatics and mechanical engineering; materials for absorbing and insulating against sound, heat, cold, water and vapour, the aforesaid goods being in particular in the form of roll materials, sheets, die-cuts and cuttings being semi-finished materials, in particular of non-woven fabrics; insulating materials of non-woven fabrics for electric equipment and installations, and for the cable industry in the form of sheets, bands, cuttings and being semi-finished materials; insulating materials of non-woven fabrics for heat, cold and soundproofing installations and equipment in the form of sheets, cuttings and being semi-finished materials; packaging materials of non-woven fabrics in sheet form and pre-fabricated as casings, envelopes and covers; insulating gloves; leather and imitations of leather; animal skins, hides; semi-worked leather with an imitation leather surface; semi-worked leather with an embossed imitation leather surface film, in particular a film of polyurethane; building materials (non-metallic), in particular natural and artificial stone, cement, lime, mortar, plaster, gravel; non-metallic rigid pipes for building, in particular of sandstone and cement, asphalt, pitch and/or bitumen; monuments, not of metal; building materials for ceilings and sealing of house roofs, in particular roof insulation felts consisting predominantly of asphalt, pitch and/or bitumen; materials for road construction, in particular asphalt, pitch and bitumen; protective dust covers of non-woven fabrics for the building industry and for mining; tarpaulins and cuttings of non-woven fabrics for ground consolidation and being drainage material for structural engineering, civil engineering, road construction and mining; tarpaulins and cuttings of non-woven fabrics for ground consolidation, drainage and irrigation for agricultural and horticultural applications; geotextiles namely non-woven textile fabrics and non-woven textiles made of synthetic fibres for use in the building industry; window blinds of non-woven fabrics; mirrors, picture frames; Covers of non-woven fabrics for upholstered furniture, beds, loungers, cushions and mattresses; carrier materials and cover materials and wrappings of non-woven fabrics for inner springs and foam parts for mattresses; kitchen stools; sitting/standing aids namely folding chairs, folding stools; laundry airing devices, namely clothes hangers; sorting containers of plastic for laundry; laundry baskets of plastic; steelwool; unworked or semi-worked glass (except glass used in building); porcelain and earthenware; articles for cleaning purposes, in particular household cloths, window cloths of leather and artificial leather, dishcloths, wipes, dusters, polishing cloths, scouring cloths, all-purpose cloths, floor cloths, microfibre cloths, sponge cloths, cloths of non-woven fabrics, cloths of woven or knitted fabrics, dry scouring pads of non-woven fabrics with and without a sponge part; disposable wipes for household use with antibacterial properties; steelwool for cleaning, in particular steelwool cleaners with and without a foam handle; steelwool pads; sponges for household purposes, in particular plastic-coated scouring sponges, cleaning sponges of viscose or plastic; household or kitchen utensils, in particular brushes, mops, devices for wringing out mops, toilet brushes, toilet brush holders, hand-operated window cleaning apparatus namely squeegees for windows, water scrapers, dustpans, gloves for light industrial use, household gloves for kitchen use, for cleaning and washing, for maintenance or household purposes, in particular of latex or plastic; gardening gloves; gloves for preparing of foodstuffs and beverages; gloves for hairdressing; gloves for polishing; disposable gloves for household and gardening purposes; laundry airing devices, namely clothes racks for drying, drying racks, rotary washing lines, drying holders, clothes-pegs, ironing boards, sleeve boards, ironing board covers, ironing cloths (shaped ironing board covers), iron cleaning cloths; household or kitchen containers, in particular buckets, pedal bins, rubbish bins; spray bottles for cleaning liquids; non-woven fabrics being cleaning media for electromagnetic data carriers and magnetic heads; ropes; string; mosquito nets; nets for sports; tents; awnings, tarpaulins; sails; wadding for padding and stuffing; raw fibrous textile materials; clothes lines; yarns and threads, for textile use; bed covers; table covers; non-woven fabrics for making quilt covers, mattresses and for use in the furniture industry, in particular as filling material; non-woven fabrics for shielding against electromagnetic waves, high-energy radiation, biological and chemical agents, all of the aforesaid non-woven fabrics being in the form of roll materials, sheets, die-cuts and cuttings being semi-finished materials, non-woven fabrics being semi-finished materials for respirators and respiratory masks for medical and industrial use; non-woven fabrics being semi-finished materials for insertion in plastic objects for reinforcement and for attaching markings and inscriptions; velour needle-punched non-woven fabrics being semi-finished goods; woven fabrics, knitted fabrics, non-crimp fabrics, crocheted fabrics, meshed fabrics, non-woven fabrics or combinations thereof, in particular for industrial use, including in the form of roll materials; textile laminates; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, foams, leather; textile interlinings, in particular woven and knitted interlinings and interlinings of non-woven fabrics, including in the form of roll materials; collar inserts, in particular woven collar inserts, in particular consisting of polyester, cotton and/or a mixture of polyester and cotton; horsehair fabrics and linen padding; biaxially stretchable fabrics; biaxially stretchable woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, in particular for relining and strengthening of surface materials; non-woven fabrics being interior linings for artificial leather and leather goods of all kinds; fabrics, in particular woven fabrics, knitted fabrics, non-crimp fabrics, crocheted fabrics, meshed fabrics, non-woven fabrics or combinations thereof, for making clothing; flame-retardant fabrics, in particular of flame-retardant fibres; flame-retardant woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof; flame-retardant textile composites of woven fabric with needle-consolidated or otherwise consolidated non-woven fabrics; water- and oil-repellent fabrics, including impregnated with chemicals; water- and oil-repellent woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, including impregnated with chemicals; fabrics with antistatic properties; woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof with antistatic properties; fabrics with integrated electrically conductive threads; woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof with integrated electrically conductive threads; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for work clothing, in particular for clothing for doctors and surgical gowns; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for work clothing, in particular for clothing for doctors and surgical gowns; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for clothing for doctors and surgical gowns; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for use in operating theatres; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for use in operating theatres; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for use in operating theatres; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for protective work clothing; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for protective work clothing; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for protective work clothing; non-woven fabrics being components of leisure wear and sportswear, namely outer fabrics and linings for jackets, trousers, coats, suits, combinations (clothing), shirts, gloves and padding and stuffing for clothing and headgear; textile linings and padding material for footwear or combinations thereof; multilayer ballistic composite materials of fabrics and, in particular adhesive, fastening materials; ballistic textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes; penetration-resistant woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof; penetration-resistant textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes; velour fabrics; velour tape, in particular self-adhesive; knitted loop velour tape, in particular self-adhesive; fabrics with effect yarns, in particular effect yarns of fibrous leather materials (thermoplastic polyurethane elastomers); knitted fabrics, crocheted fabrics, woven fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, all being made with effect yarns, in particular effect yarns of fibrous leather materials and/or TPU (thermoplastic polyurethane elastomers); decorative knitted fabrics, decorative crocheted fabrics, decorative woven fabrics, decorative non-crimp fabrics, decorative meshed fabrics, decorative non-woven fabrics, or combinations thereof; fabrics, in particular knitted fabrics, crocheted fabrics, woven fabrics, non-crimp fabrics, meshed fabrics or combinations thereof, of leather materials, in particular of fibrous leather materials and/or leather thongs; fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, with an imitation leather surface; fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, with an embossed imitation leather surface film; non-woven fabrics with an embossed imitation leather surface film of polyurethane; felt, including in the form of roll materials; table linen (not of paper) and bed linen; non-woven fabrics for cosmetic use; non-woven fabrics being light diffusing elements or sun screens; non-woven fabrics comprising microfibres or nanofibres, non-woven fabrics of microfibres or nanofibres or multilayer systems with layers comprising microfibres or nanofibres; footwear, in particular shoes and shoe components; hats, caps, hard hats; sportswear; textile stiffening inserts, pre-fabricated inserts, collar inserts being parts of clothing; underwear; corsets; neckties; braces for clothing (suspenders); gloves (clothing); penetration-resistant textile soles for footwear; penetration-resistant textile insoles for footwear; armpit supports; armpit pads being clothing inserts (pre-fabricated); babies' pants; tailored interlinings of non-woven fabrics for creative and craftwork; lace and embroidery; ribbons and braid; safety pins, marking pins, sewing needles; artificial flowers; Carpets, rugs, door mats, floor mats, yoga mats, sleeping mats, linoleum for covering existing floors; car mats for foot wells and interior trim; decorations for Christmas trees; meat, fish, poultry and game; meat extracts; preserved, frozen and dried fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats; Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour, bread, pastry and ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar; spices; ice; fresh fruits and vegetables; natural plants; Beers; mineral and aerated waters; fruit beverages and fruit juices; syrups for making beverages; tobacco; matches.

SERVICES

Advertising the goods and services of others through all public communication means; business management; business administration; electronic data processing, in particular systemisation of information into computer databases, compilation of information into computer databases, computerised file management, organisational project management in the field of electronic data processing, professional business and organisational consultancy in the field of computerised processes regarding the organisation and management of companies; insurance; real estate affairs; building construction; repair and maintenance of industrial air and liquid filtration systems; filter technology services, namely training in relation to the configuration and operation of filtration installations for use in the air, water, food and beverages, and industrial oils, coolants and lubricants industries and for pools and spas; electronic data processing, namely IT courses relating to the operation, maintenance and management of databases and computer software systems, including in particular in the field of cloud computing; design and development of computer hardware and software; technological services, namely increasing the efficiency of production installations, processes and staff, optimisation of energy efficiency of lubricant applications, support for lubricant management, servicing using lubricants, maintenance using lubricants, implementation, achieving and preserving of savings, in particular in production installations, consultancy in relation to achieving improvements in productivity through optimisation recommendations based on tribological analyses of lubricant applications or based on test bench studies, extending the service life of wear parts, in particular in the large drive and chain sector;

filter technology services, namely technical consultancy in relation to the selection and fields of use for filter installations and filter installation parts; electronic data processing, namely consultancy in relation to the design of homepages and Internet websites, rental and maintenance of electronic memory space for others, software development, updating of computer software, design of computer software, rental of computer software, computer programming, computer hardware and software consultancy, implementation of computer programs on networks, installation of computer programs, configuration of computer networks using software, conversion of computer programs and data, installation, maintenance and care of computer software, including in particular in the field of cloud computing, providing computer programs on data networks; scientific and technological services and research, in particular development and design of electric circuits and sensors, including related mechatronic and/or optical components; conducting chemical analyses in the field of electroplating for others; chemical process technology analyses and quality control and quality assurance relating to electroplating baths and processes; monitoring of and consultancy regarding electroplating operations; conducting of technical and scientific investigations and tests in the field of electroplating; conducting of corrosion protection tests, including in particular in accordance with standards (DIN, ISO, ASTM); rental of control and regulation software and hardware for electroplating operations; technical project studies in the field of electroplating; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services; legal services for others; security services for the protection of property or individuals; licensing of computer software .

CLAIMS

Priority Filing Date: GERMANY July 16, 2014, Application No: 013090618 in association with the same kind of goods and in association with the same kind of services. Proposed Use in CANADA on goods and on services

Goods

Unprocessed artificial resins and unprocessed plastics used in industry; adhesive compositions of polyurethane; thermoplastic elastomer resins and thermoplastic concentrates in liquid form for use in industry; chemicals for electroplating, passivating, phosphating and sealers and chemicals, namely sealers of organic polymers and nanoparticles of silicon dioxide and chemical additives therefor for corrosion protection, reducing friction, heat resistance and improved visual appearance when applied; paint strippers; chemicals based on oils, greases and waxes, in particular chemicals based on oils, greases and waxes being mould-release agents for moulds of plastics or of metals or being for release agents for welding of metal; chemical additives for oils; antifreeze; brake fluid; isostatic coatings of polytetrafluoroethylene; impregnating agent, namely polyurethane emulsions for use as a water repellant on textiles; chemical compositions for use on different surfaces on tiles, grout, textiles, fabrics, upholstery, carpets, clothing, outer clothing and footwear, to repel or remove dirt, stains and moisture, in particular impregnating agents for household surfaces and/or textiles; chemical cleaning preparations for use in industrial processes, in particular in the food and food processing industries; chemicals in the form of detergency enhancers; chemical substances for preserving foodstuffs, namely raw materials for smoothing and preserving prepared foodstuffs, in particular confectionery; glazes and release agents for foodstuffs in the form of emulsions and dispersions; mixtures for manufacturing elastomers or rubbers, in particular mixtures for manufacturing elastomers or rubbers for use at low temperatures, mixtures for manufacturing elastomers or rubbers for binding to metals; mixtures for manufacturing elastomers or rubbers for binding to metals and for use at low temperatures; varnishes, lacquers; preservatives against rust and against deterioration of wood; colorants for use in the manufacture of paint, food, cosmetics, pharmaceuticals; raw natural resins; preparations for preventing the deterioration of wood; lacquers, in particular sliding lacquers; coatings for protection against rust and/or corrosion; Bleaching preparations for laundry use; soaps for household use; moisture-impregnated disposable cloths, steelwool pads with soap; cleaning preparations for glass, in particular window glass; cleaning preparations for surfaces of metal, including stainless steel, chromium, bronze and copper; cleaning preparations for range and stove surfaces; cleaning preparations for counter surfaces; cleaning preparations for cabinet surfaces; cleaning preparations for eating and cooking implements, including cutlery, dishes, pots and pans; cleaning preparations for wood; bathroom cleaning preparations, cleaning preparations for stone surfaces, including marble surfaces and granite surfaces; cleaning preparations for tiles and grouting mortar; all-purpose cleaning preparations; cleaning preparations for motor vehicles; general-purpose cleaning and polishing liquids; cleaning preparations for carpets and carpeting; pet stain removers; mould-removing preparations; shoe care preparations, in particular shoe cream, shoe wax; all-purpose scouring liquids; scale-removing preparations; fabric softeners for laundry use; preparations for the care, treatment and beautification of fabrics; industrial oils, in particular lubricating oils; industrial greases, in particular lubricating greases; lubricants, in particular lubricants in the form of sliding lacquers; additives for lubricants; self-lubricating, unprocessed artificial resins and plastics for improving sliding properties, in particular in the form of powders, liquids or pastes; self-lubricating artificial resins and plastics for improving sliding properties in the form of powders, liquids or pastes being friction-reducing coating preparations; self-lubricating artificial resins and plastics for improving sliding properties in the form of panels, blocks and rods being semi-finished goods and being substitutes for bearing metals; dust absorbing, wetting and binding compositions, namely automotive lubricants and industrial lubricants; adhesive bandages; wound dressings; wound dressing pads; compresses and compress covers; foam materials for treatment and management of wounds; medical textiles for wound care, wound compresses and substitute skin (patches); medical textiles being adhesion barriers on wounds and for closing wounds; medical textiles for haemostasis; medical textiles with regenerative properties being carriers of cells for bone, cartilage, skin and tendon regeneration; insecticides and deodorising preparations; common metals and their alloys; pipes and tubes of metal; safes; ores; water-tight rings and flanges of metal for pipes and tubes; textile machines; packaging machines; hydraulic accumulators for storing and providing pressure; hydraulic reservoirs, in particular diaphragm accumulators, piston accumulators, pressure accumulators, accumulators for axle suspension, wheel suspension and/or cab suspension; belts for machines; rollers for printing machines; diaphragms for pumps and valves; anti-friction bearings for machines; ball-bearings, roller bearings and plain bearings being parts of machines; bearings, in particular self-lubricating bearings; fitted parts made of self-lubricating artificial resins and plastics for improving sliding properties, namely self-lubricating bearings; bearings for transmission shafts; journal boxes (parts of machines); seals being parts of engines; components of metal for use in the gas and oil industry, in particular scrapers of metal, pressure test seals, components for wireline and downhole tools and shutter valves; seals of metal, in particular for use in the oil and gas industry, in particular flange seals, including spiral-wound seals and serrated seals; rod wipers and piston guide rings used in hydraulic and pneumatic cylinders; guide and oil-removing elements for hydraulic and pneumatic cylinders; guide elements for hydraulic and pneumatic applications, in particular guide rings and bearing rings for protection of cylinder rods and pistons; intake manifolds for land, air and water vehicles; engine parts for air and water vehicles, namely shaft couplings, transmission shafts, driving gear elements, journals (parts of machines), machine belts; bellows; expansion bellows, in particular rubber expansion bellows, expansion bellows of thermoplastic elastomers; elastic bearings for machines being sound and vibration absorption parts; pneumatic springs and spring struts with bellows of elastomeric material for supporting vibrating parts of vehicles and machines; elastic springs for sound, vibration and shock absorption, being parts of machines; multilayer springs for sound, vibration and shock absorption, being parts of machines; valves for machines, motors and engines; moulded semi-finished parts and finished goods of vulcanised perfluoroelastomers in the form of diaphragms for hydraulics, pneumatics and mechanical engineering; bearings for use in machine parts, vehicles and for transmission shafts namely hydraulic bearings, spherical bearings, conical bearings, machine bearings, flat bearings, wedge-shaped bearings, round bearings, instrument bearings, support bearings, barrel roller bearings, framework support bearings, axle guide bearings, hydraulic axle guide bearings, double U bearings, V bearings, MO bearings, M bearings, O-shaped bearings; bushings, in particular hydraulic bushings; springs for use in industrial machinery, namely multilayered springs, conical springs, chevron springs, roller springs, auxiliary springs; spring inserts for use in industrial machinery; spring bases being parts and fittings for industrial machinery; rolling supports for use in industrial machinery and vehicles; buffers being parts and fittings for industrial machinery; transverse and longitudinal buffers; wedge bundles being parts and fittings for industrial machinery; cleaning robots; electric floor cleaning brushes, suction apparatus for cleaning windows, namely vacuum cleaner specifically for cleaning windows; electric cleaning machines for carpets and carpeting; filters being parts of machines, motors or engines; roller covers of non-woven fabrics; cash registers, calculating machines, computers; automated lubricant dispensers for use in dispensing specific quantities of specialty lubricants for use with industrial machinery and in industrial applications; filters being fitted parts for office equipment, namely for laser printers, document shredders, fax machines and copiers; filters being fitted parts for outlet air from office equipment, namely from laser printers, document shredders, fax machines and copiers; connectors, in particular electric connectors; sheaths for electric cables; fuel cells and parts therefor; printed circuits; junction sleeves for electric cables; covers for electric outlets; magnet armatures; magnetic encoders used for the detection of position and movement in the industrial and automotive fields; solenoid-controlled valves; battery separators of non-woven fabrics, non-woven fabrics being semi-finished materials for making battery separators, non-woven fabrics for use in batteries; respirators and respiratory masks, in particular of non-woven fabrics, for use in industry; cases and liners of non-woven fabrics for electromagnetic data carriers and floppy disks; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, in particular flat cables, flat conductors, circuit boards; flat conductors for use as antennae structures; cable assemblies consisting of round cables and/or flat conductors; connections for antennae structures in the windscreen region of vehicles; connections for antennae structures in the windscreen region of vehicles being designed exclusively as a flat conductor or as a combination of flat and round cables; connections for heating systems in the windscreen region of vehicles being designed exclusively as a flat conductor or as a combination of flat and round cables; grounding strips; capacitor films; sensors for detecting pressure, temperature, electric currents, electric voltages, moisture, distances and/or mechanical deflections; membrane keyboards; electric wiring and sensors, in particular for wiring solar cells; protective gloves for use in industry; artificial limbs, eyes and teeth; suture materials; hoses of silicone and thermoplastics, silicone plugs and silicone sealing clamps for transfer of fluids for use in the pharmaceutical, biopharmaceutical and medical industries; prostheses, in particular voice prostheses; trocars; surgical adapters, in particular fistula adapters; textile surgical implants fitted with regenerative cells for regeneration of organs and body tissue, including the aforesaid goods of non-woven fabrics or comprising non-woven fabrics; surgical textiles for supporting vascular prostheses and organs; textiles for coating prostheses; textile surgical implants being substitutes for tissue and for strengthening tissue; inserts comprising non-woven fabrics for air purification installations and equipment for the medical industry, respiratory masks of non-woven fabrics for medical use, inserts comprising non-woven fabrics for respirators and masks for the medical industry; adhesive bandages; antiseptic liquid bandages; bandages for dressings; menstruation bandages; moleskin for use as a medical bandage; elastic bandages; health trusses; hernia bandages; plaster bandages for orthopaedic purposes; plaster bandages for orthopedic purposes; support bandages; supporting bandage slings; supportive bandages; suspensory bandages; surgical gowns, surgical drapes, surgical face masks, plaster supports, supports for first-aid dressings, gauze substitutes, padded bandages (bandages for use under plaster casts); lighting for control panels; flat cables and flat conductors with electronic components for interior or exterior lighting of vehicles, ships, aircraft, buildings, for lighting of furniture or for lighting for control panels; film heaters and large-area flat conductors, used in particular for heating exterior mirrors, steering wheels, seats, batteries, passenger compartments, sensor systems, trim parts and units; components for heating installations for vehicles, in particular film heaters; filter inserts for cleaning air supply and exhaust air and being parts for air conditioning; filter inserts for air purifiers, in particular for air purifiers for rooms; filter inserts for ventilation installations, in particular for mobile ventilation installations; filter inserts for ventilation installations for office equipment, in particular for purifying the inlet air of computers; filter inserts for stationary and mobile ventilation installations for rooms, in particular for offices, conference rooms, entrance halls, exhibition halls and hotel rooms; filter inserts with a fixed frame or being cartridges, in particular filter inserts of non-woven fabrics, in particular for air filtration in air conditioning installations and fresh air blowers for motor vehicles; textile filter fabrics for repelling pollen and dust and for ventilation, being sheet material and in a fixed frame for building apertures; filter inserts for gas, air and liquid filtration installations and equipment, in particular pre-fabricated filter inserts of non-woven fabrics therefor; non-woven fabrics for reinforcing semi-permeable membranes for microfiltration and ultrafiltration and reverse osmosis; filter inserts for milk, beverage and drinking water filtration installations and equipment, in particular pre-fabricated filter inserts of non-woven fabrics therefor, and non-woven fabrics therefor being semi-finished materials; drive belts; clamp rollers; machines for gas distribution and valve actuation; engine parts for land vehicles, namely shaft couplings, transmission shafts, journals (parts of machines), drive belts; parts of land, air and water vehicles, namely shock absorbers, shock absorber springs, suspension springs, pneumatic springs; carts for transporting cleaning materials and equipment; guide rods, in particular wheelset guides; trailing links; pneumatic springs; non-woven fabrics for automobile construction; non-woven fabrics for use in manufacturing the interior trim of automobiles, trucks, vans, boats and aircraft; sound and heat-absorbent insulating materials of non-woven fabrics in the form of moulded parts or surface structures, being linings for luggage compartments and engine compartments and being linings for passenger compartments of land, air and water vehicles; Precious metals and their alloys; jewellery, precious stones; Paper, cardboard; photographs; adhesives for stationery or household purposes; paint brushes; typewriters and plastic materials for packaging; printers' type; printing blocks; rubbish bags of plastic or paper; vacuum cleaner bags of non-woven fabrics, paper or non-woven/paper laminates; paper or non-woven/paper laminates for vacuum cleaner bags; filters being fitted parts for office equipment, in particular for laser printers and document shredders; rubber, gutta-percha, gum, asbestos and mica; extruded plastics for use in manufacturing; seals of polytetrafluoroethylene, elastomers, rubber or highly elastic and thermoplastic plastics or thermoplastic elastomers combined with metals or other plastics, in particular lip seals for movable parts of machines; shaft seals; radial shaft seals; retaining rings; cassette seals; valve stem seals; O-ring seals; butterfly valve seals; sealing plugs designed as composite parts of metals and elastomers for use in the manufacture of automobiles and as parts for industrial machinery; seals for shock absorbers and gas pressure springs; valve-spindle seals; O-rings; flat gasket seals; O-ring seals; axle seals; seals (not of metal), namely oil seals, liquid seals, insulating seals, piston seals and rod seals, in particular cup seals, packing seals and rod wiper seals; buffer seals for use in the manufacture of automobiles and as parts for industrial machinery; wiper rings, all of the aforesaid goods being for sealing against oil, grease or air in hydraulic and pneumatic applications; seals for hydraulic braking systems; seals for hydraulic and pneumatic cylinders; screw seal rings, in particular USIT rings; rotary pressure seals for use in the manufacture of automobiles and as parts for industrial machinery; diaphragms, in particular accumulator and separator diaphragms, pump diaphragms, regulating and switching diaphragms; solid silicone parts, namely jet formers for showers, seals, diaphragms, housing parts, injection moulded parts, namely liquid silicone seals for use in industrial machinery; liquid silicone seals for use in the manufacture of automobiles and as parts for industrial machinery; plastics in the form of sheets, blocks, balls, rods for use in the manufacture of automobiles and as parts for industrial machinery and pipes; static cylinder cover seals; V-packings being chevron multilayer packing seals for sealing static piston and centrifugal applications, in which male and female adapters are used in order to make up a V-set; stuffing box packings namely seals for use in pumps that can resist high temperatures and chemicals; elastomers and plastics for use in the gas and oil industry; seals, not of metal, for use in the gas and oil industry, in particular packers, production packers, service packers, mechanical packers; BOP (blow-out prevention) seals; rubberised chain wheels; panels of graphite-based materials for use as sealing rings, packing seals and for heat insulation; slide ring packings and seals namely mechanical seals and packings therefore for use in sealing and packing a rotating shaft; seal support rings for sealing against oil, grease or air in hydraulic and pneumatic applications; sound-absorbing multilayer panels for use in the manufacture of automobile parts and as parts for industrial machinery of foam and/or plastics for vehicle cabs, for the building industry and for industrial machines; elastomers, in particular elastomers for use at low temperatures; rubber, in particular rubber for use at low temperatures; moulded semi-finished parts and finished goods of vulcanised perfluoroelastomers in the form of seals and O-rings for use in hydraulics, pneumatics and mechanical engineering; materials for absorbing and insulating against sound, heat, cold, water and vapour, the aforesaid goods being in particular in the form of roll materials, sheets, die-cuts and cuttings being semi-finished materials, in particular of non-woven fabrics; insulating materials of non-woven fabrics for electric equipment and installations, and for the cable industry in the form of sheets, bands, cuttings and being semi-finished materials; insulating materials of non-woven fabrics for heat, cold and soundproofing installations and equipment in the form of sheets, cuttings and being semi-finished materials; packaging materials of non-woven fabrics in sheet form and pre-fabricated as casings, envelopes and covers; insulating gloves; leather and imitations of leather; animal skins, hides; semi-worked leather with an imitation leather surface; semi-worked leather with an embossed imitation leather surface film, in particular a film of polyurethane; building materials (non-metallic), in particular natural and artificial stone, cement, lime, mortar, plaster, gravel; non-metallic rigid pipes for building, in particular of sandstone and cement, asphalt, pitch and/or bitumen; monuments, not of metal; building materials for ceilings and sealing of house roofs, in particular roof insulation felts consisting predominantly of asphalt, pitch and/or bitumen; materials for road construction, in particular asphalt, pitch and bitumen; protective dust covers of non-woven fabrics for the building industry and for mining; tarpaulins and cuttings of non-woven fabrics for ground consolidation and being drainage material for structural engineering, civil engineering, road construction and mining; tarpaulins and cuttings of non-woven fabrics for ground consolidation, drainage and irrigation for agricultural and horticultural applications; geotextiles namely non-woven textile fabrics and non-woven textiles made of synthetic fibres for use in the building industry; window blinds of non-woven fabrics; mirrors, picture frames; Covers of non-woven fabrics for upholstered furniture, beds, loungers, cushions and mattresses; carrier materials and cover materials and wrappings of non-woven fabrics for inner springs and foam parts for mattresses; kitchen stools; sitting/standing aids namely folding chairs, folding stools; laundry airing devices, namely clothes hangers; sorting containers of plastic for laundry; laundry baskets of plastic; steelwool; unworked or semi-worked glass (except glass used in building); porcelain and earthenware; articles for cleaning purposes, in particular household cloths, window cloths of leather and artificial leather, dishcloths, wipes, dusters, polishing cloths, scouring cloths, all-purpose cloths, floor cloths, microfibre cloths, sponge cloths, cloths of non-woven fabrics, cloths of woven or knitted fabrics, dry scouring pads of non-woven fabrics with and without a sponge part; disposable wipes for household use with antibacterial properties; steelwool for cleaning, in particular steelwool cleaners with and without a foam handle; steelwool pads; sponges for household purposes, in particular plastic-coated scouring sponges, cleaning sponges of viscose or plastic; household or kitchen utensils, in particular brushes, mops, devices for wringing out mops, toilet brushes, toilet brush holders, hand-operated window cleaning apparatus namely squeegees for windows, water scrapers, dustpans, gloves for light industrial use, household gloves for kitchen use, for cleaning and washing, for maintenance or household purposes, in particular of latex or plastic; gardening gloves; gloves for preparing of foodstuffs and beverages; gloves for hairdressing; gloves for polishing; disposable gloves for household and gardening purposes; laundry airing devices, namely clothes racks for drying, drying racks, rotary washing lines, drying holders, clothes-pegs, ironing boards, sleeve boards, ironing board covers, ironing cloths (shaped ironing board covers), iron cleaning cloths; household or kitchen containers, in particular buckets, pedal bins, rubbish bins; spray bottles for cleaning liquids; non-woven fabrics being cleaning media for electromagnetic data carriers and magnetic heads; ropes; string; mosquito nets; nets for sports; tents; awnings, tarpaulins; sails; wadding for padding and stuffing; raw fibrous textile materials; clothes lines; yarns and threads, for textile use; bed covers; table covers; non-woven fabrics for making quilt covers, mattresses and for use in the furniture industry, in particular as filling material; non-woven fabrics for shielding against electromagnetic waves, high-energy radiation, biological and chemical agents, all of the aforesaid non-woven fabrics being in the form of roll materials, sheets, die-cuts and cuttings being semi-finished materials, non-woven fabrics being semi-finished materials for respirators and respiratory masks for medical and industrial use; non-woven fabrics being semi-finished materials for insertion in plastic objects for reinforcement and for attaching markings and inscriptions; velour needle-punched non-woven fabrics being semi-finished goods; woven fabrics, knitted fabrics, non-crimp fabrics, crocheted fabrics, meshed fabrics, non-woven fabrics or combinations thereof, in particular for industrial use, including in the form of roll materials; textile laminates; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, foams, leather; textile interlinings, in particular woven and knitted interlinings and interlinings of non-woven fabrics, including in the form of roll materials; collar inserts, in particular woven collar inserts, in particular consisting of polyester, cotton and/or a mixture of polyester and cotton; horsehair fabrics and linen padding; biaxially stretchable fabrics; biaxially stretchable woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, in particular for relining and strengthening of surface materials; non-woven fabrics being interior linings for artificial leather and leather goods of all kinds; fabrics, in particular woven fabrics, knitted fabrics, non-crimp fabrics, crocheted fabrics, meshed fabrics, non-woven fabrics or combinations thereof, for making clothing; flame-retardant fabrics, in particular of flame-retardant fibres; flame-retardant woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof; flame-retardant textile composites of woven fabric with needle-consolidated or otherwise consolidated non-woven fabrics; water- and oil-repellent fabrics, including impregnated with chemicals; water- and oil-repellent woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, including impregnated with chemicals; fabrics with antistatic properties; woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof with antistatic properties; fabrics with integrated electrically conductive threads; woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof with integrated electrically conductive threads; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for work clothing, in particular for clothing for doctors and surgical gowns; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for work clothing, in particular for clothing for doctors and surgical gowns; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for clothing for doctors and surgical gowns; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for use in operating theatres; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for use in operating theatres; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for use in operating theatres; multilayer fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, for protective work clothing; multilayer composite materials of fabrics and, in particular adhesive, fastening materials for protective work clothing; textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes, for protective work clothing; non-woven fabrics being components of leisure wear and sportswear, namely outer fabrics and linings for jackets, trousers, coats, suits, combinations (clothing), shirts, gloves and padding and stuffing for clothing and headgear; textile linings and padding material for footwear or combinations thereof; multilayer ballistic composite materials of fabrics and, in particular adhesive, fastening materials; ballistic textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes; penetration-resistant woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof; penetration-resistant textile laminates consisting of a plurality of layers bonded to one another, in particular flat layers, of fabrics and optionally other materials, including foils, films, membranes; velour fabrics; velour tape, in particular self-adhesive; knitted loop velour tape, in particular self-adhesive; fabrics with effect yarns, in particular effect yarns of fibrous leather materials (thermoplastic polyurethane elastomers); knitted fabrics, crocheted fabrics, woven fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, all being made with effect yarns, in particular effect yarns of fibrous leather materials and/or TPU (thermoplastic polyurethane elastomers); decorative knitted fabrics, decorative crocheted fabrics, decorative woven fabrics, decorative non-crimp fabrics, decorative meshed fabrics, decorative non-woven fabrics, or combinations thereof; fabrics, in particular knitted fabrics, crocheted fabrics, woven fabrics, non-crimp fabrics, meshed fabrics or combinations thereof, of leather materials, in particular of fibrous leather materials and/or leather thongs; fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, with an imitation leather surface; fabrics, in particular woven fabrics, knitted fabrics, crocheted fabrics, non-crimp fabrics, meshed fabrics, non-woven fabrics, preferably needle-consolidated or otherwise consolidated non-woven fabrics, or combinations thereof, with an embossed imitation leather surface film; non-woven fabrics with an embossed imitation leather surface film of polyurethane; felt, including in the form of roll materials; table linen (not of paper) and bed linen; non-woven fabrics for cosmetic use; non-woven fabrics being light diffusing elements or sun screens; non-woven fabrics comprising microfibres or nanofibres, non-woven fabrics of microfibres or nanofibres or multilayer systems with layers comprising microfibres or nanofibres; footwear, in particular shoes and shoe components; hats, caps, hard hats; sportswear; textile stiffening inserts, pre-fabricated inserts, collar inserts being parts of clothing; underwear; corsets; neckties; braces for clothing (suspenders); gloves (clothing); penetration-resistant textile soles for footwear;

penetration-resistant textile insoles for footwear; armpit supports; armpit pads being clothing inserts (pre-fabricated); babies' pants; tailored interlinings of non-woven fabrics for creative and craftwork; lace and embroidery; ribbons and braid; safety pins, marking pins, sewing needles; artificial flowers; Carpets, rugs, door mats, floor mats, yoga mats, sleeping mats, linoleum for covering existing floors; car mats for foot wells and interior trim; decorations for Christmas trees; meat, fish, poultry and game; meat extracts; preserved, frozen and dried fruits and vegetables; jellies, jams, compotes; eggs; milk and milk products; edible oils and fats; Coffee, tea, cocoa and artificial coffee; rice; tapioca and sago; flour, bread, pastry and ices; sugar, honey, treacle; yeast, baking-powder; salt; mustard; vinegar; spices; ice; fresh fruits and vegetables; natural plants; Beers; mineral and aerated waters; fruit beverages and fruit juices; syrups for making beverages; tobacco; matches.

SERVICES

Advertising the goods and services of others through all public communication means; business management; business administration; electronic data processing, in particular systemisation of information into computer databases, compilation of information into computer databases, computerised file management, organisational project management in the field of electronic data processing, professional business and organisational consultancy in the field of computerised processes regarding the organisation and management of companies; insurance; real estate affairs; building construction; repair and maintenance of industrial air and liquid filtration systems; filter technology services, namely training in relation to the configuration and operation of filtration installations for use in the air, water, food and beverages, and industrial oils, coolants and lubricants industries and for pools and spas; electronic data processing, namely IT courses relating to the operation, maintenance and management of databases and computer software systems, including in particular in the field of cloud computing; design and development of computer hardware and software; technological services, namely increasing the efficiency of production installations, processes and staff, optimisation of energy efficiency of lubricant applications, support for lubricant management, servicing using lubricants, maintenance using lubricants, implementation, achieving and preserving of savings, in particular in production installations, consultancy in relation to achieving improvements in productivity through optimisation recommendations based on tribological analyses of lubricant applications or based on test bench studies, extending the service life of wear parts, in particular in the large drive and chain sector; filter technology services, namely technical consultancy in relation to the selection and fields of use for filter installations and filter installation parts; electronic data processing, namely consultancy in relation to the design of homepages and Internet websites, rental and maintenance of electronic memory space for others, software development, updating of computer software, design of computer software, rental of computer software, computer programming, computer hardware and software consultancy, implementation of computer programs on networks, installation of computer programs, configuration of computer networks using software, conversion of computer programs and data, installation, maintenance and care of computer software, including in particular in the field of cloud computing, providing computer programs on data networks; scientific and technological services and research, in particular development and design of electric circuits and sensors, including related mechatronic and/or optical components; conducting chemical analyses in the field of electroplating for others; chemical process technology analyses and quality control and quality assurance relating to electroplating baths and processes; monitoring of and consultancy regarding electroplating operations; conducting of technical and scientific investigations and tests in the field of electroplating; conducting of corrosion protection tests, including in particular in accordance with standards (DIN, ISO, ASTM); rental of control and regulation software and hardware for electroplating operations; technical project studies in the field of electroplating; veterinary services; hygienic and beauty care for human beings or animals; agriculture, horticulture and forestry services; legal services for others; security services for the protection of property or individuals; licensing of computer software .

CLAIMS

Priority Filing Date: GERMANY July 16, 2014, Application No: 013094859 in association with the same kind of goods and in association with the same kind of services. Proposed Use in CANADA *on goods and on services*

Application Number 1,708,377 **Filing Date** 2014-12-22

Goods

Software for music recognition; software for the recognition of images in audio/visual entertainment content; software for music identification; software for accessing information relating to music and audio/visual recordings; software for searching information from a global computer network or the Internet; databases of recorded music files; databases of recorded music; electronic wallpaper or other graphical images delivered by telephone or mobile phone; downloadable wallpaper or other graphical images; downloadable computer games; downloadable ringtones; downloadable music.

SERVICES

The provision of online advertising space; the rental of advertising space; the receipt of orders from consumers for pre-recorded music and the transfer of said orders to retailers of pre-recorded music; the receipt of orders from consumers for ring tones and the transfer of said orders to ring tone providers; the receipt of orders from consumers for electronic wallpaper or other graphical images and the transfer of said orders to electronic wallpaper providers; the receipt of orders from consumers for audio/video recordings of performances by musical artists and the transfer of said orders to retailers of audio/video recordings of performances by musical artists; the receipt of orders from consumers for pre-recorded audio/visual entertainment content, namely, films, television programmes, musical performances, music videos, music news, documentaries and advertisements, and the transfer of said orders to retailers of pre-recorded audio/visual entertainment content, namely films, television programmes, musical performances, music videos, music news, documentaries and advertisements; the bringing together, for the benefit of others, of a variety of goods being audio recordings, ring tones, electronic wallpaper or other graphical images, and audio/video recordings of performances by musical artists, enabling customers to conveniently view, purchase and download those goods from an Internet website specialising in the marketing of audio recordings, ring tones, electronic wallpaper or other graphical images, and audio/video recordings of performances by musical artists; the bringing together, for the benefit of others, of a variety of goods being pre-recorded audio/visual entertainment content, namely, films, television programmes, musical performances, music videos, music news, documentaries and advertisements, enabling customers to conveniently view, purchase and download those goods from an Internet website specialising in the marketing of said audio/visual entertainment content, information and advisory services in the field of the aforesaid services; electronic and cellular text messaging services; delivery by mobile phone of audio/visual content in the field of entertainment, namely films, television programs, musical performances, music videos, music, news, documentaries, books, advertisements, product, sales offers, quizzes, via telephone and mobile phone; electronic wireless transmission by mobile phones to consumers of internet links to interactive audio/visual entertainment content, namely films, television programs, music, musical performances, music videos, news, text, documentaries, books, advertisements, sales offers, quizzes; delivery of musical recordings or musical performances via telephone or mobile phone; delivery of audio/video recordings of performances by musical artists delivered via telephone or mobile phone; disseminating information and data in the field of entertainment namely films, television programs, music, musical performances, music videos, news, text, documentaries, books, advertisements, via the Internet; providing online chat rooms and electronic bulletin boards for transmission of messages among users in the field of general interest; providing online forums, journals and blogs for the transmission of messages, comments, information in the field of musical performances and entertainment and audio/visual entertainment content among users; providing an online platform for live interaction by means of text messaging, video conferencing, teleconferencing and phone calls between and among users of computers, telephones and mobile phones; providing multiple user access to a global computer network and the Internet, information and advisory services in the field of the aforesaid services; entertainment services, namely musical performances, music composition, broadcasting of music and music concerts over the internet, online sale of downloadable pre-recorded music, production of music records, production of music videos, broadcasting of music videos over the internet, online sale of downloadable pre-recorded music videos; provision of information in the field of dates and venues of musical performances, concerts and shows; electronic publishing services; on-line publishing of music and magazines; provision of information in the field of audio/visual entertainment content, namely films, television programs, musical performances, music videos, music, news, documentaries, books, advertisements, sales offers, quizzes; provisions of information in the field of music via telephone or mobile phone or via the Internet; provision of information in the field of music via telephone or mobile phone where said music is relayed to the information provider via telephone or mobile phone; music recognition services; music identification services; provision of location based information, namely information on entertainment venues, namely, theatres stadiums arenas concert halls and gig venues and live comedy performances, theatrical performances and, live music concerts the field of entertainment, to telephone or mobile phone users, information and advisory services in the field of the aforesaid services.

MEDITERRANEAN CLASSIC VIÑA ESMERALDA TORRES TRADICION FAMILIAR DESDE 1870

Image Description (Vienna)
- Towers or masts, derricks (except 7.1.16) -- Notes: (a) Including transmitting masts. -- (b) Not including Eiffel Tower (7.5.2).
- Shields containing other figurative elements or inscriptions
- Shields containing representations of landscapes, dwellings, buildings or structural works
- Framework and frames
- Complete framework and frames
- Ellipses
- One circle or ellipse
- Circles or ellipses containing one or more letters
- Green
- Yellow, gold
- Black

Trademark Description
The wording under Torres is "TRADICION" to the left of the three tower design and "FAMILIAR" to the right. Beneath the tower design is the wording "DESDE 1870"

Colour Claim
Colour is claimed as a feature of the trade-mark. The applicant claims the colours 'light green', 'dark green', 'gold', and 'black' as essential features of the trade-mark. The label is light green; the solid border line and dotted border line are both gold. The words 'MEDITERRANEAN CLASSIC' are gold. The words 'Viña Esmeralda' are in dark green. The word 'TORRES' is in black. The

design motif below the word 'TORRES' comprises three towers in gold on a dark green background.

Foreign Character Translation

The translation provided by the applicant of the foreign word(s) "VIÑA", "TRADICION FAMILIAR" and "DESDE" is "WINE" "FAMILY TRADITION" and "SINCE".

Goods

Class 06

(1) Metal panel systems comprising metal walls, ceiling, floor and door panels and metal mounting accessories therefor, namely, brackets for use in controlling the flow of cooling air in data centers and computer rooms; metal cable trays; pre-fabricated metal buildings for data center applications; systems comprised of metal and fiber laminates for wrapping conduits, cable trays, and structural steel.

Class 09

(2) Alarm panels; power amplifiers; automatic transfer switches for power systems; electrical switchboards; electric storage batteries; battery and uninterruptible electrical power supply monitoring systems, namely microprocessor based hardware and software used to monitor and test the status of battery backup and uninterruptible electrical power supply systems; battery backup power systems; chargers for electric storage batteries; battery racks; computer hardware and peripherals, namely, keyboard-video-mouse (KVM) and serial console switches for remote access and control of computers; computer hardware and peripherals, namely, KVM and serial

console switches; refrigeration condensers; capacitors; controllers for power supplies; cooling devices for computer hardware and telecommunication equipment, namely, internal cooling fans; computer hardware and software for data center infrastructure configuration and management; data center and computer room management systems comprised primarily of uninterruptible power supplies, electronic controller for controlling air conditioning and temperature, air flow sensors, software for monitoring data center and computer room infrastructure equipment, and also containing a cooling system comprised primarily of air cooling apparatus, namely, cooling evaporators, air conditioning units, electric fans, water cooling towers and associated electronic fan controls, air conditioning controls and power controllers, cabinets specially adapted for computer hardware equipment, and racks, curtains, doors and containment panels for use with computer systems, all sold together as a unit; data center monitoring and control systems, namely, microprocessor based hardware and software used to monitor and control electrical and electronic equipment, and environmental conditions in a data center, telecommunication center, computer room or electronic equipment room environment; electric power control switches; electric power converters; electric power monitoring and control systems, namely, microprocessor based hardware and software used to monitor the status and control electrical power systems, power transfer switches, electric load banks, electric power distribution units, battery systems and uninterruptible electrical power supply systems; electrical power control systems, namely, paralleling switchgears; power distribution units for racks of computers and networking equipment located within data centres; electrical power load banks; electrical power transfer switches; electronic controls for server racks and data center cooling units; enclosures, cabinets, shelters and racks for computer servers and electrical and electronic equipment; fan trays for cooling of telecommunication devices; fire pump controllers; electronic thermostats; climate control and cooling systems for telecom and datacom equipment consisting of thermostats for cooling equipment and a programmable logic controller (PLC); inverters for power supply; lighting ballasts; lighting controls; microprocessor based hardware and software used to monitor and control cooling and air handler units for data centers and other computer and telecommunications equipment applications; monitors for fire pumps; power conditioners; power conditioning equipment; electric power conversion devices; power converters; power distribution units; power dividers; uninterruptable power supplies; power switches; current rectifiers; regulating apparatus for electric power, namely, regulators for phase shifting of electronic signals; remote electrical power control switches; remote controllers for power supplies; server rack monitoring systems, namely microprocessor based hardware and software used to monitor the status of electronic and electrical equipment in a server rack; server racks; server racks comprising integrated cooling units; signaling panels, luminous or mechanical; software for data center infrastructure configuration and management; testing apparatus not for medical purposes, namely, battery testers; transformers, namely, current transformers, distribution transformers, electric transformers, electric voltage transformers, power transformers; uninterruptible electrical power supplies; voltage regulators; voltage surge protectors; voltage surge suppressors; voltmeters.

Class 11

(3) Air handlers for cooling data centers; cooling units and systems comprising cooling units and air conditioners for computer server racks and computer data centers; cooling units for computers and computer rooms; air conditioning condensers for use in cooling data centers, computer rooms and other computer and electronic equipment applications; dehumidifiers for use in cooling data centers, computer rooms and other computer and electronic equipment applications.

SERVICES

Class 37

(1) Installation, maintenance and repair of data center cooling systems; installation, maintenance and repair of power, computer and communication equipment; installation, maintenance and repair of computer room air conditioning (CRAC) systems; installation, repair and maintenance of batteries; installation, repair and maintenance of electrical power systems; installation, repair and maintenance of batteries and fuel cells for electrical power systems.

Class 40

(2) Manufacture of power solutions for network applications; manufacture of power supplies for computing, communications, and industrial equipment applications.

Class 41

(3) Educational services, namely, conducting classes, seminars, and workshops in the field of electrical power systems, and data center infrastructure management, and distribution of training material in connection therewith.

Class 42

(4) Air conditioning services, namely, data center and computer room assessment, maintenance and preventive maintenance services; battery monitoring and testing; consulting services in the field of electrical power systems for data centers, computer rooms and other commercial and industrial facilities; design and delivery of power solutions for network applications for others; design for others in the fields of power, computing and communication project planning; electrical engineering services, namely, providing analysis, testing, studies, recommendations and plans relating to the safety, efficiency, performance and reliability of electrical equipment and power systems; power solutions and data center equipment engineering services; providing assessment of the performance, reliability, maintenance and configuration of data center and commercial and industrial facility power systems; providing assessment of the performance, reliability, maintenance and configuration of data center cooling systems; remote monitoring of the functioning and use of electrical equipment, electrical power systems, and data center and computer room environmental conditions; technical consultation in the fields of electrical and backup power systems.

Erratum

The following issues of the Trade-marks Journal contained errors which could not be corrected before publication.

2018-02-07

1,822,513

The mark was incorrectly advertised in the Trade-marks Journal dated February 7, 2018, Vol 65 Issue 3302. The date of first use in Canada has been corrected.
